MANDATE:

At the request of the Malian Government, and based on UN resolutions, in particular UN Security Council Resolution 2085, the Member States of the European Union agreed to participate in a mission to train the Malian armed forces. Established in February 2013 under the framework of the EU Common Security and Defence Policy (CSDP).

Mandate 5 was politically approved 23 March 2020 and will last 4 years (18 MAY 2024) with an intermediate evaluation. Some significant changes compared to mandate 4. In mandate 5; the Mission Area will be extended to the whole of Mali, the operational advice to HQ's and command posts especially in the centre of Mali (Mopti and Segou region) will be reinforced; strengthening of collective and pre-deployment training including non-executive accompaniment at secured locations. Although the focus will remain on Mali, the 5th mandate gives room for increasing G5Sahel Joint Force support (including pre-deployment training, (PDT)), for the three Sector HQ's in Burkina Faso, Niger and Mauritania. Furthermore, EUTM Mali will contribute to the PDT of G5S JF with priority for sector Centre (Burkina Faso-Niger).

ACHIEVEMENTS:

- EUTM-Mali has provided training to more than 15.000 Malian armed forces (MaAF) students.
- Decentralised activities: EUTM Mali has performed 23 CMATT (Combined Mobile Advisory and Training Teams) and 5 MRAA (Military Region Advice Activity) in the MaAF Military Regions.
- EUTM-Mali has provided numerous centralised courses at the Koulikoro Training Camp (KTC).
- Counter-IED, First Aid and Human Rights and International Humanitarian Law included in all courses.
- EUTM provides different courses for G5 Sahel Joint Force staff. Most recently a PDT of the G5S JF Mandate 5 personnel was finalized.

STATE OF PLAY AND WAY AHEAD:

With the establishment of the Council of National Transition a new step is set in the direction of new elections. In line with mandate 5 the decentralized activities increased and were intensified. Since July 21 a Theatre Rotary Wing capacity (ESP) is available.

WAY FORWARD

With more resources available more decentralized activities can be provided, as requested by the MaAF.
